About Me

Certified Microsoft Power BI Data Analyst with 3 years 6 months of experience in data collection, transformation, modelling, visualization and analysis. Proficient in gathering requirements, defining objectives while working with cross-functional teams. Cleared **SSC CGL 2022** and got a post where I utilised my Data Analytics expertise while using software like **SAP ERP, Excel, Power BI, Python, DAX, Power BI Dashboards, Visualisation, Data Modeling and Management**. Currently seeking a transition to a **Data Analyst or Power BI Developer** role in a good organization that aligns with my skills and interests.

Skills

SQL, Excel (Conditional formatting, formulae, pivot tables, lookup), Power BI Dashboards, Dax, Business Intelligence, Data Analysis

Microsoft Power BI (Power query, relationship, DAX, Reports, Service), Data Modeling, Visualisation, Dashboards, Reports, Data Analytics

Python, Pandas, Scipy, Numpy, Matplotlib, Django, Django Rest Framework, API, Stakeholder Management, KPI

Critical thinking, Teamwork, Problem-solving, good mathematics, statistics and reasoning, communication, English

Work Experience (Total Relevant Experience: 3 Years 6 Months)

DATA ANALYST, DEPARTMENT OF POSTS, MINISTRY OF COMM. GOVT. OF INDIA | Location: Meerut December 2023 – February 2025

- Collected data from **SAP ERP** and Sharepoint **Excel** exports
- After connecting to exported files, cleaned, transformed and loaded data using **Power Query** and modelled the data in **Power BI**
- Created visualizations and performed insightful analysis like **anomalies and outliers in mail transaction, missing mail, places that are receiving most mail, predictions about mail transaction volume in the coming months** that helped the officials to **scale accordingly** and make data-driven decisions
- Tools and software – Power BI, Dashboards, Collaboration, Advanced Excel, SAP ERP, DAX, Power Query**

DATA ANALYST AND TESTER, WIPRO | Client: Telefonica, Location: Noida December 2020 – August 2023

- Collected data for 2G, 3G, 4G networks that had extensive records to be analysed
- Utilized **SQL and Excel** to perform **Exploratory Data Analysis (EDA)** on the data
- Connected to the data using **Power BI** and created **more than 40 reports**
- Reduced time taken in manual reporting by **10 hours** with my expertise and **Power BI's automation abilities**
- Insightful and detailed visualizations** helped the client to understand descriptive and predictive analysis that helped them to make appropriate decisions for the future that eventually increased the network planning **accuracy by 20%**
- Tools and software – Power BI, Advanced Excel, Pivot tables, SQL, DAX, Power Query, Python, Reporting, Data Visualization, Data Modeling, Dashboards, Stakeholder Management**
- Additional tools – Xakta, APT, Opus

Certifications

MICROSOFT POWER BI DATA ANALYST (**Microsoft**) March 2025

Personal Projects (GitHub: <https://github.com/bayekosiwa> for personal projects)
